Abtract Submissions 2019
General Instructions

Abstracts for Oral and Poster Presentations must be submitted in advance in the format described below to conform to the Conference Book of Abstracts.

Authors of submitted papers which are accepted by the Conference Committee will be required to register for the Conference and pay the appropriate registraton fee.

Please be sure that you have obtained any necessary permissions from your organization before submitting an Abstract. Authors are cautioned against including pre-publication information in Abstracts. All authors should be careful not to disclose information which may be the basis of a patent application.

Abstracts should be submitted electronically by email to **info@sensor100.com**

PLEASE SPELL CHECK YOUR ABSTRACT

Example:

Electrochemical Detection of DNA at Directly Heated Electrodes

Lars Krüger[1], Christoph Herz[2], Gerd-Uwe Flechsig[1,2]

1. Gensoric GmbH | Schillingallee 68 | D-18057 Rostock |Germany

2. Manchester Metropolitan University |School of Science and the Environment|John Dalton East |Chester Street|Manchester |M1 5GD | UK

Electrochemical detection methods have already shown how easy, fast, and cheap the detection of chemical compounds or even DNA ...
