9th Annual
Sensors in Medicine 2021

Virtual

Sensor 100

8 - 12 November
02:00 - 06:00 pm
GMT Daily

Poster Competition

Posters are invited on any subject within the subject themes of the Conference. All posters are automatically entered into a competition to be judged by the conference delegates through an on-line poll. The top three posters will be awarded trophy prizes sponsored by **Sensors and Diagnostics.** Acceptance of posters and awards are at the discretion of the Conference organising committee. Registration fees are waived for full-time post-graduate students registered for a higher degree; documentary evidence may be required.

Submission

The title of the poster, the presenting author and his/her institutional affiliation should be sent to **sim21@sensor100.com**. Posters will be accepted up until 29th October.

Exhibition and Presentation

Each poster will be assigned a Booth in the Exhibit Hall in the Poster Exhibit category under the title of the author's institutional affiliation. A link to the Booth will be sent to the author for editing; the author should upload a pdf version of the poster by clicking on **UPLOAD** under Handouts.

Sessions for authors to present their posters have been included in the Conference Agenda on Tuesday 9th and Thursday 11th November. Each author will have 3-minutes and the use of one slide/image to present their poster.
